Choosing the Correct Cell Model for Pool Size

Cell Model	E18		E40		E60	
	AmbientT emperature		AmbientT emperature		AmbientT emperature	
Maximum pool size in cub. mtrs*	Above 26 °C	Less than 26 °C	Above 26 °C	Less than 26 °C	Above 26 °C	Less than 26 °C
		50	60	80	120	120
Chlorine Output g/h	14		26		36	

* Maximum pool size is subjected to using Cyanuric acid to balance pool water.

* Suitable for private pools!

* In special pools (Overflow pools, Lap pools, , Hydrotherapy pools, Public/Commercial pools) or in cases of heightened chlorine demand (such as warmer climates, high bathers load, etc.), it is recommended to choose a larger model.
